

Yonbo is a robot
from the future internet world.
The annual Game Festival is about to begin in
the virtual internet world!
With grand decorations, a bustling atmosphere,
and endless balloons floating into the sky...
Yonbo is excited to join in the fun
and celebrate this lively festival.
What fun adventures await
Yonbo on this exciting day?
Let's join Yonbo and have some fun!

Say to the robot: "Scan the QR code!"
Hold the QR code in front of the robot's head.

Story Background

In this virtual internet world,
technology is growing faster than ever.

Data travels at the speed of light, and
the ability to process information is
beyond imagination.

Yonbo is a robot from the future internet
world. Today is the annual Game Day!
Let's join Yonbo and celebrate this fun
holiday together!

Today is the annual Game Day in the internet world, and there are celebrations happening all around the streets.

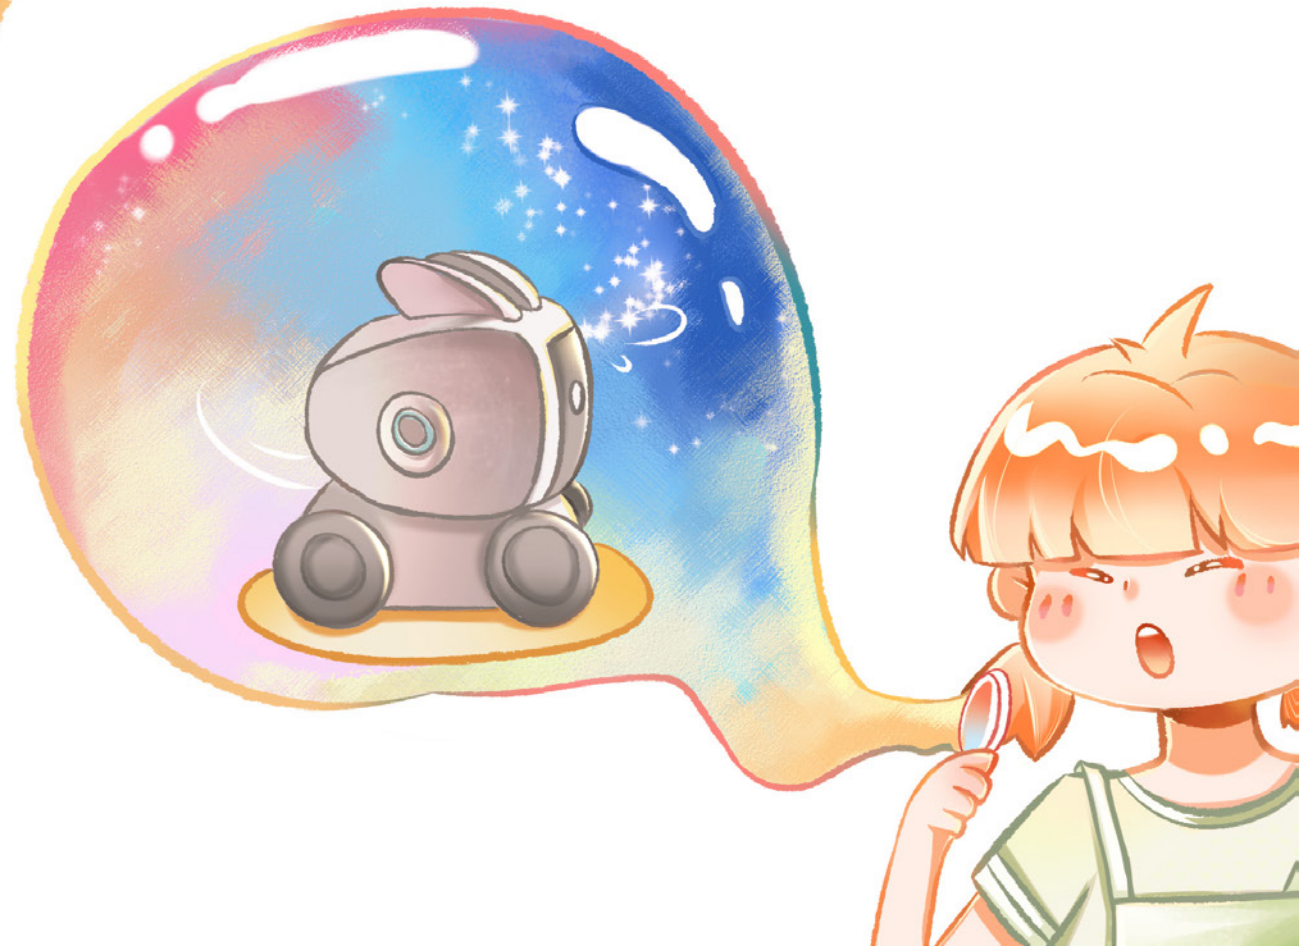

This is Yonbo's first time
celebrating Game Day,
and it is very curious about everything
on the street.

It looks to the left,

then to the right,

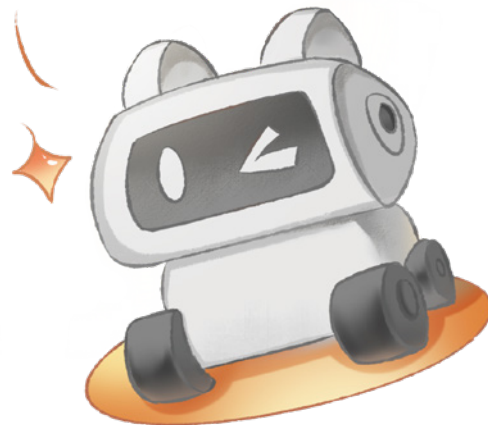

and arrives
at the Festive Playground.

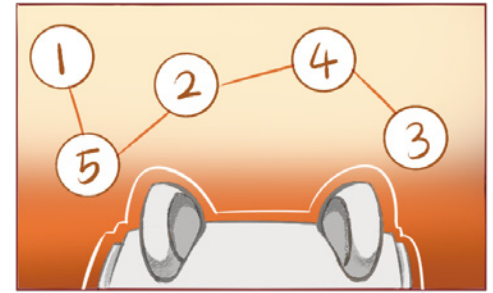

Data Sprint

Please say to the robot: "Scan the QR code!"
Point the QR code at the robot's head.

Data Sprint

We recommend placing the cards 2 steps apart from each other!

1. This is a timing game that requires a wristband controller.
2. First, put on the wristband and turn it on. Wait for the light to turn blue.
3. Find the game number cards from 1 to 5 and place them on a flat surface. We recommend arranging them like this.
4. When the game starts, listen carefully to the numbers Yonbo says. Use the wristband to guide Yonbo to the correct number card and scan it. If the scan is successful, Yonbo will tell you the next number. You may also trigger a special card effect!
5. The game includes 10 rounds of tasks. Let's see how many tasks you can complete with Yonbo! The more tasks you finish, the higher your score will be!

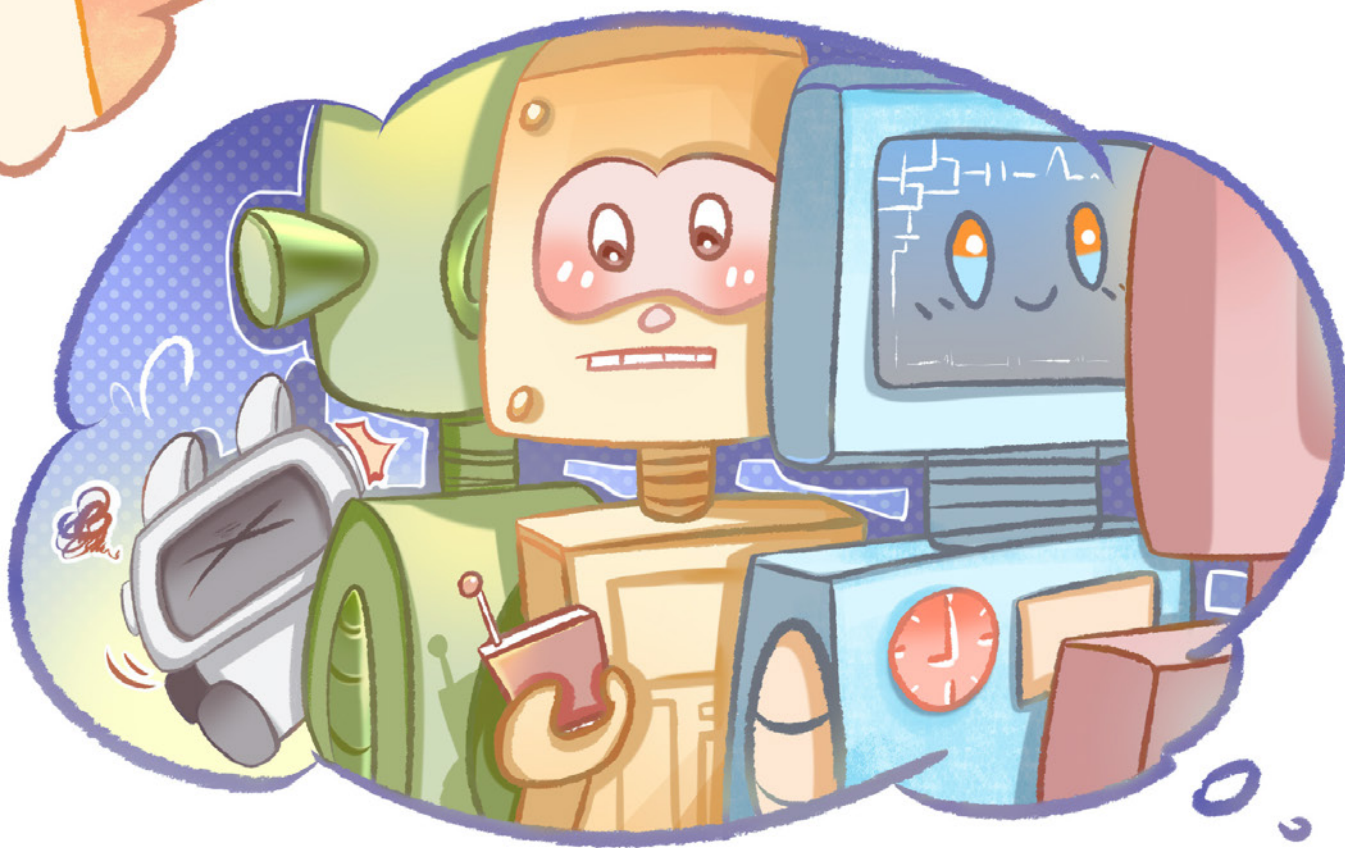

At the first booth,
there is a special racetrack
with lots of people watching.

Yonbo takes a quick look at the booth's name and is immediately drawn to it.

It hurries over to get in line.

Yonbo takes a quick look at the booth's name and is immediately drawn to it.

It sometimes accidentally bumps into the props.

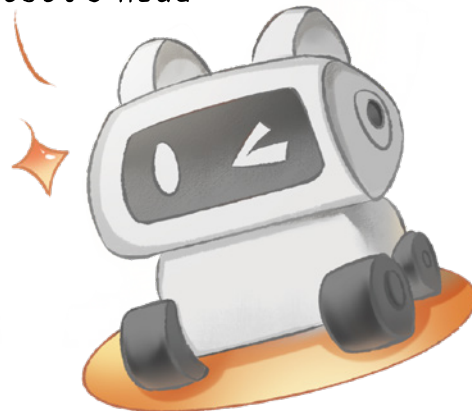

With Yonbo's effort,
it finally crosses the finish line!
Yonbo is very happy!

Digital Awards

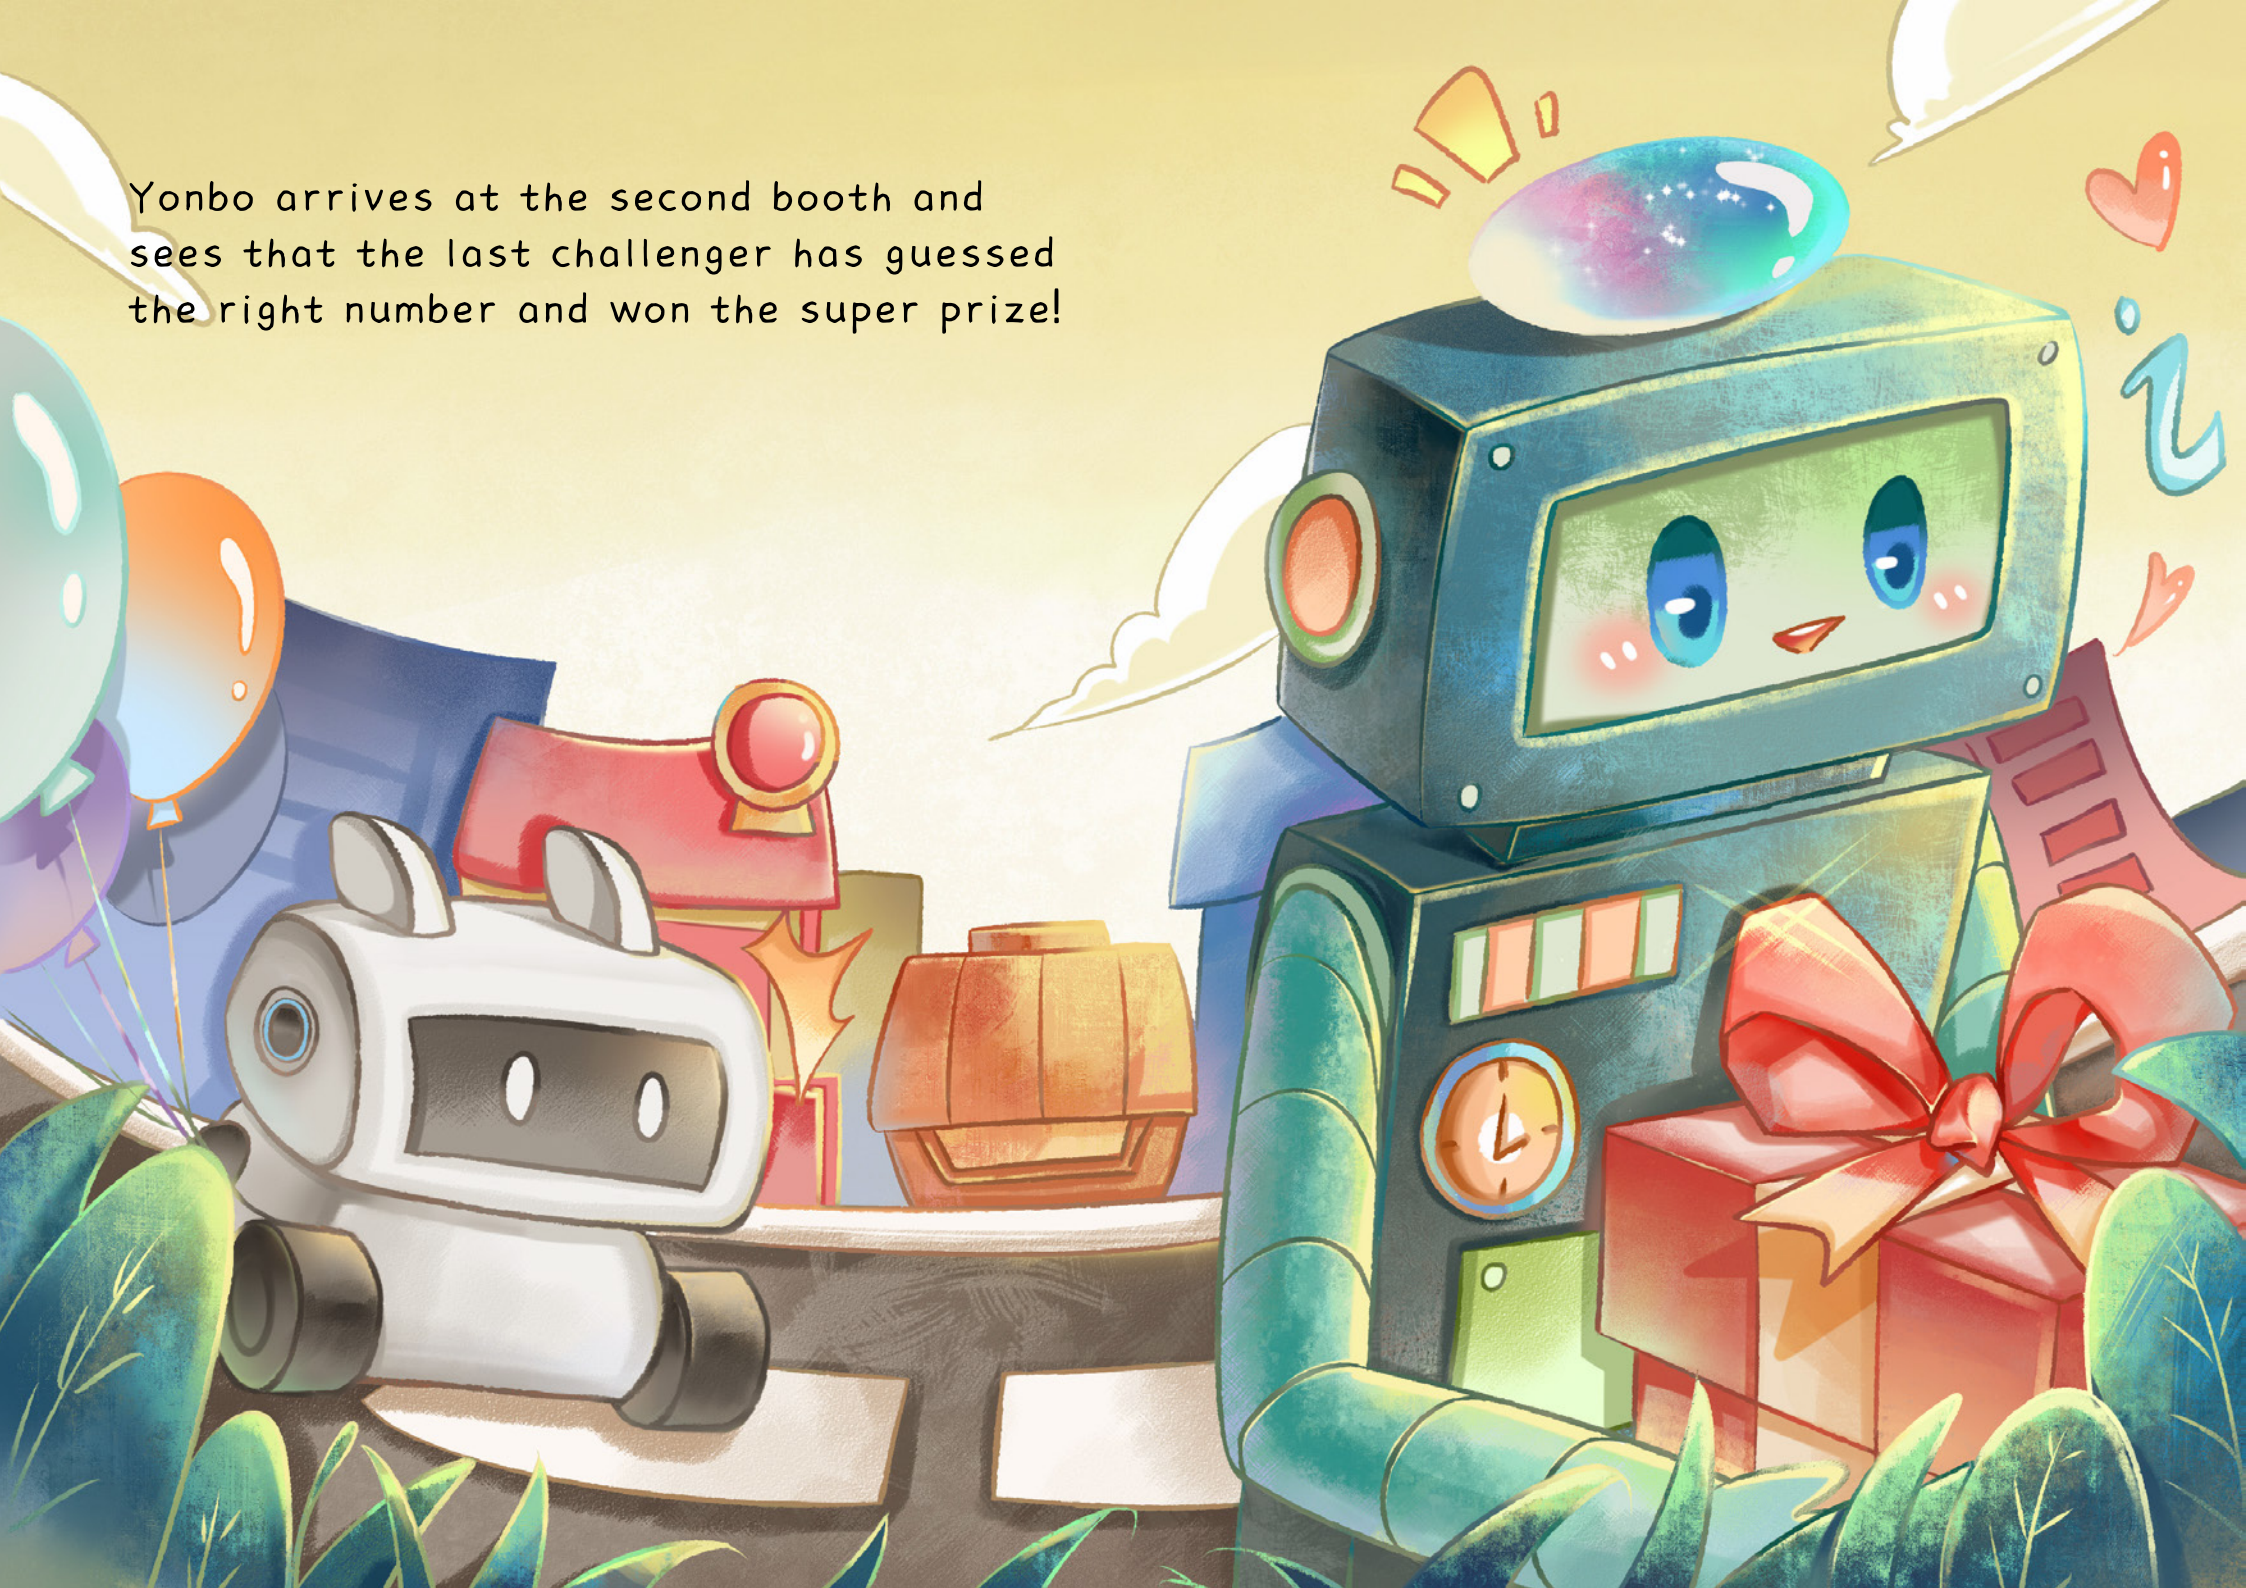

Please say to the robot: "Scan the QR code!"
Point the QR code at the robot's head.

Digital Awards

1. This is a number logic game.
2. When the game starts, listen carefully to the range of numbers given by Yonbo. Then, try to guess the number that Yonbo is thinking of within that range.
3. If you get it right, you win the challenge!

Yonbo arrives at the second booth and
sees that the last challenger has guessed
the right number and won the super prize!

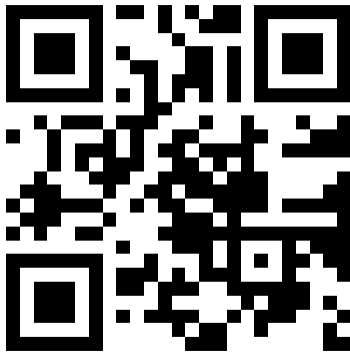

Yonbo's eyes light up. "Wow, a super prize!"
This sparks Yonbo's desire to take on the challenge.
It's Yonbo's turn to guess the number, and its number is 26.

After a few rounds of guessing,
Yonbo uses its smarts and successfully guesses the right number.

Yonbo opens the prize box and finds a shiny badge inside. After putting it on, Yonbo happily heads to the next booth.

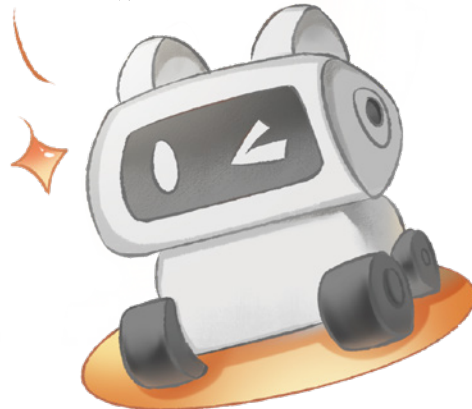

Fun Riddles

Please say to the robot: "Scan the QR code!"
Point the QR code at the robot's head.

Fun Riddles

1. This is a riddle guessing game.
2. When the game starts, listen carefully to the hints and riddle description given by Yonbo to guess the final answer.
3. If you guess right, you win the challenge!

While playing and exploring, Yonbo arrives at the next booth. It's very quiet here, as everyone has a frown on their faces.

Suddenly, a loud voice breaks the silence:

"I know! It's (___)!"

"Congratulations, you got it right!"

That's when Yonbo arrives at the Fun

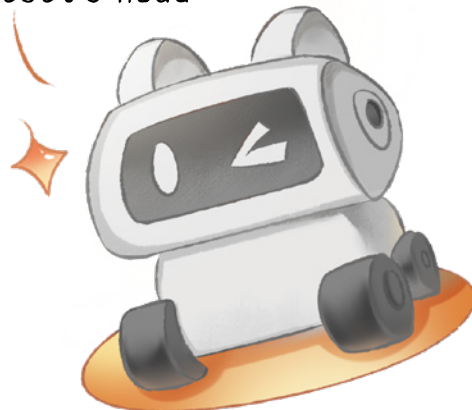

Memory Kitchen

Memory Kitchen

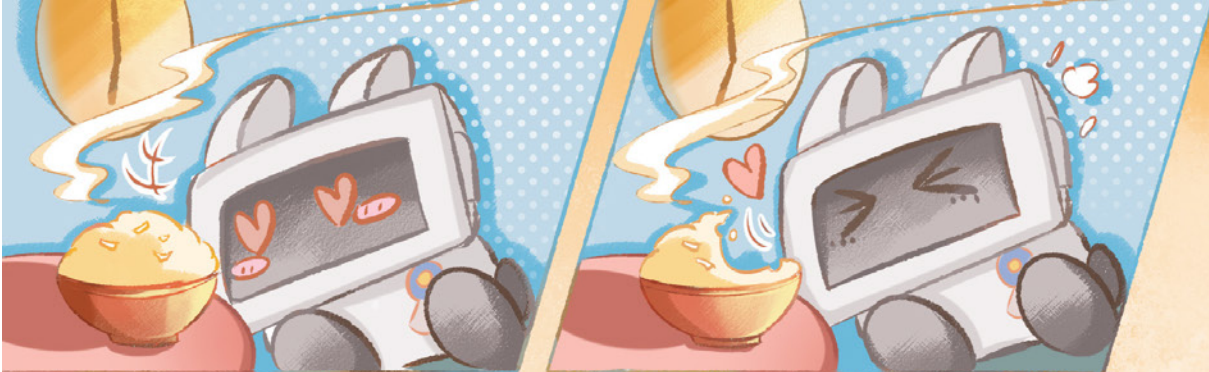

Please say to the robot: "Scan the QR code!"
Point the QR code at the robot's head.

1. This is a memory game.
2. When the game starts, listen to Yonbo's hints to choose the difficulty level of the recipe. there are easy, normal and difficult recipes. You can say, "Choose easy recipe," and Yonbo will tell you what recipe to follow.
3. Next, find the number card that Yonbo said and listen to the name of the ingredient. Remeber to match each name with its card number! (For example, card number one might be a tomato, but each time the number corresponds to a different ingredient.)
4. Next, follow Yonbo's instructions to recall and find the matching ingredients. You'll need to show Yonbo the cards you've found, so it knows which ingredients you've got. Yonbo will tell you if you got them right!
5. The higher the difficulty, the more ingredients you need to find correctly, and the higher your score will be!

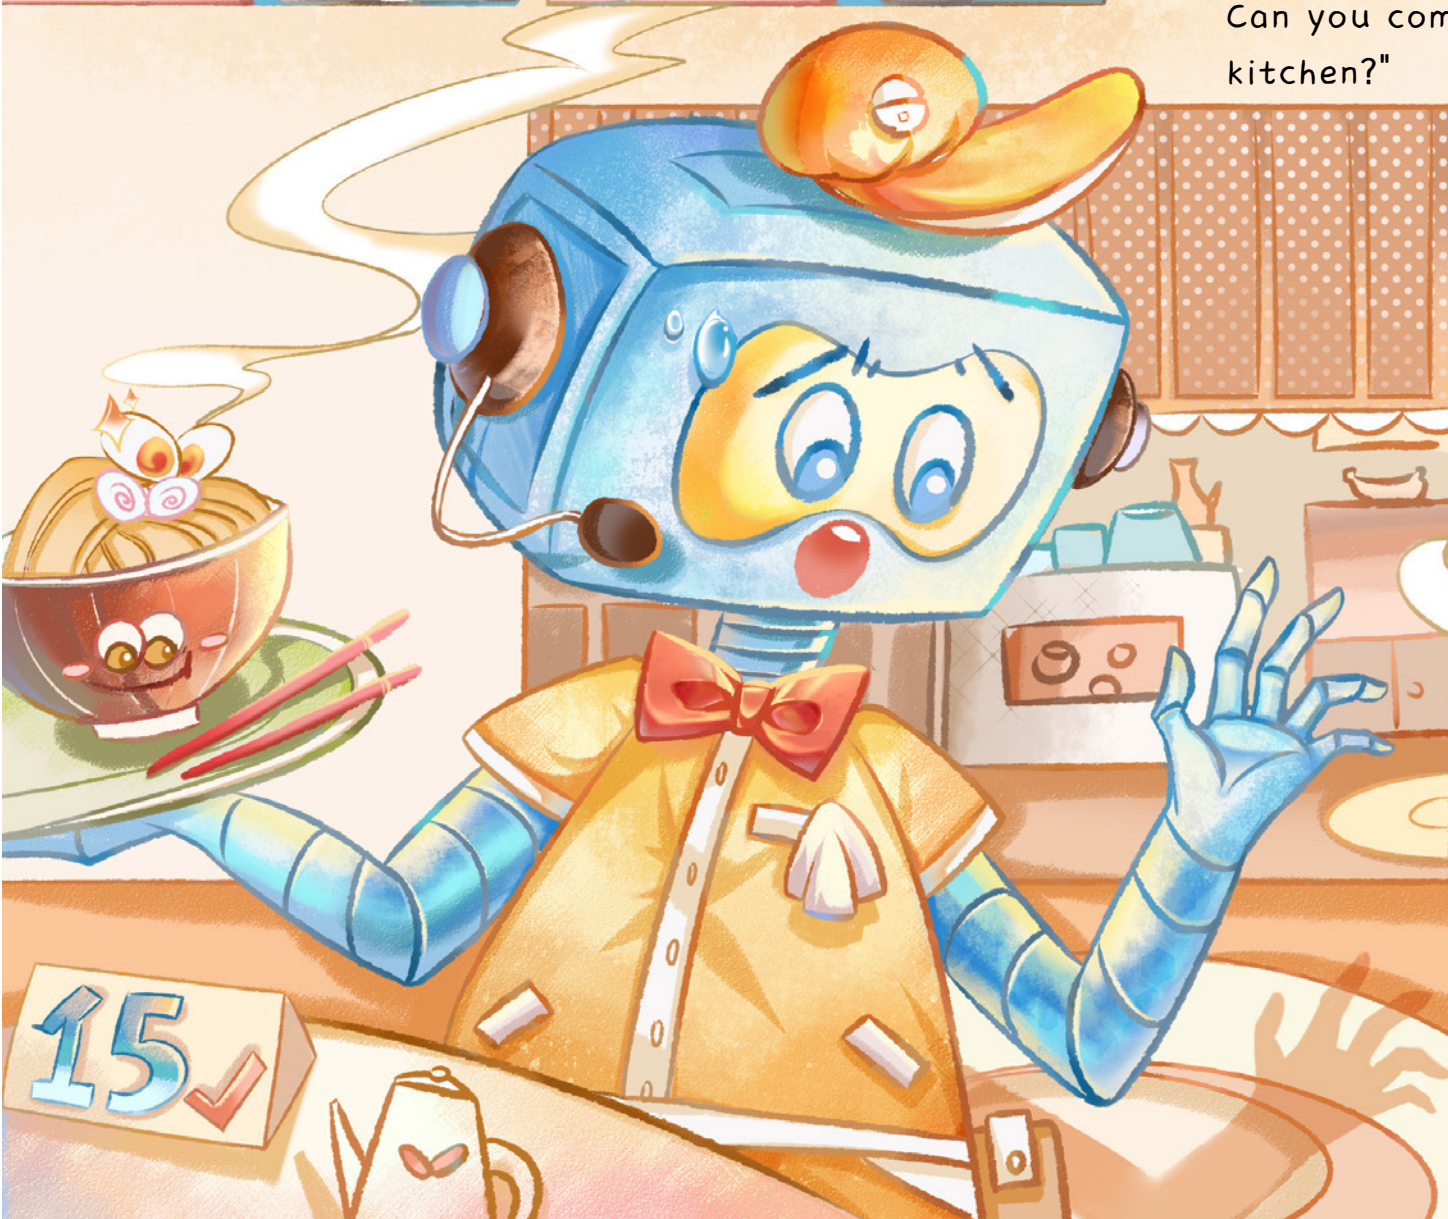

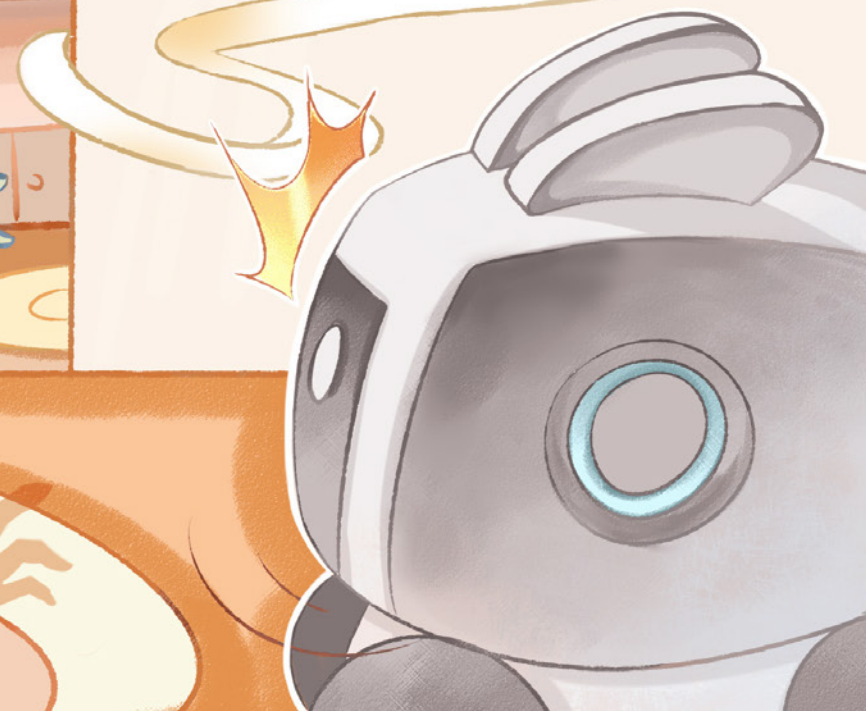

Yonbo has been playing all day and is hungry,
so it decides to go to a restaurant to eat.

Maybe because of the holiday, the restaurant is extra crowded. After finishing its meal and getting ready to leave, Yonbo is suddenly called by the head chef as it passes by the kitchen.

"We're so busy!

Can you come help us find some ingredients in the kitchen?"

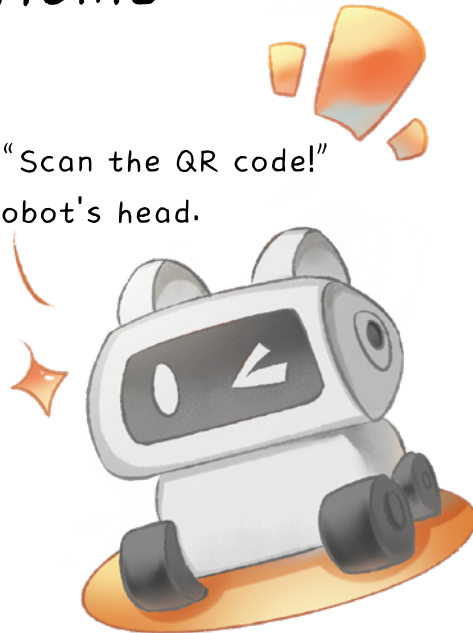

Yonbo is very helpful and immediately agrees, saying, "Coming!" It happily follows the chefs' instructions, bustling around the kitchen to find the ingredients they need. "Give me a tomato!" "Here it is!"

Going Home

Please say to the robot: "Scan the QR code!"
Point the QR code at the robot's head.

Going Home

Yonbo helps the head chef serve the hungry customers,
and it's feeling very tired!

It's getting late, and the sun is almost setting.

Yonbo looks at the time and knows it's time to go
home!

The mealtime is over, and fewer people are ordering now.

The work in the kitchen is getting easier.

Yonbo gets ready to go home. The head chef says,

"Thank you, Yonbo! We wouldn't have managed without you today!"

Yonbo shyly tilts its head and says, "You're welcome! Hehe!"

Yonbo bounces home with a pastry on its head from the head chef, humming a little tune.
